USGS QUAD MAP WEST THUMB (1986)

NGS PID

LATITUDE 44.41521

LONGITUDE -110.57048

ELEVATION 2413 m

DATE OF DESCRIPTION 2003

DESCRIPTION To reach the station, proceed 0.22 mi north along the Lake-West Thumb highway from the junction at West Thumb, thence 0.23 mi to the southeast corner of the parking area beyond the store. Walk about 600 ft southeast down an abandoned roadway to the station (the abandoned road departs southerly from a bifurcation in the boardwalk at West Thumb Geyser Basin—do not take the curvy track road that leaves from the southeast corner of the parking lot). From the bench mark it is 86.7 ft at N84W to a 4" lodgepole pine and 64.2 ft at S48W to an 8" lodgepole pine.

Looking east at bench mark (beneath person), West Thumb Geyser Basin boardwalk, and Lake Yellowstone in the background.

Close up of bench mark.

Looking north along old road at West Thumb Geyser Basin parking lot and bench mark (beneath person).
